

Portfolio Holdings Listing

Fidelity Europe Fund

as of March 31, 2026

The portfolio holdings listing (listing) provides information on a fund's investments as of the date indicated. Top 10 holdings information (top 10 holdings) is also provided for certain equity and high income funds. The listing and top 10 holdings are not part of a fund's annual/semiannual report or Form N-Q and have not been audited.

The information provided in this listing and top 10 holdings may differ from a fund's holdings disclosed in its annual/semiannual report and Form N-Q as follows, where applicable:

With certain exceptions, the listing and top 10 holdings provide information on the direct holdings of a fund as well as a fund's pro rata share of any securities and other investments held indirectly through investment in underlying non-money market Fidelity Central Funds. A fund's pro rata share of the underlying holdings of any investment in high income and floating rate central funds is provided 60 days after month-end. For certain funds, direct holdings in high income or convertible securities will be presented collectively monthly and included in a list of full holdings 60 days after month-end.

For the annual/semiannual report, a fund's investments include trades executed through the end of the last business day of the period. This listing and the top 10 holdings include trades executed through the end of the prior business day.

The listing includes any investment in derivative instruments, and excludes the value of any cash collateral held for securities on loan and a fund's net other assets. Therefore, the holdings as a percent of fund net assets may not total to 100%.

The presentation of investment holdings by category is similar to that used in other marketing materials.

The fund's holdings are consistent across all share classes.

The top 10 holdings is presented to illustrate examples of the securities that the fund has bought and the diversity of the areas in which the fund may invest, may not be representative of the fund's current or future investments, and may change at any time. The top 10 holdings do not include cash, cash equivalents, money market instruments, options, interest rate swaps, fixed income total return swaps and/or futures contracts. Depository receipts, credit default swaps and equity total return swaps are normally combined with the underlying security.

The most recent annual/semiannual report can be viewed at www.fidelity.com or www.institutional.fidelity.com. Forms N-Q are available on the SEC's web site at www.sec.gov.

Before investing, consider the fund's investment objectives, risks, charges and expenses. Contact Fidelity for a prospectus containing this information. Read it carefully.
