Social Security

Options to help you maximize your benefits
Today’s Agenda

- Social Security Essentials
- Benefits and Options
- Strategies to Consider
- Next Steps
Social Security Eligibility and Sustainability

Eligibility
- Requirements include having 40 quarters of wages that were subject to Social Security payroll taxes (quarters do not need to be consecutive)
- Benefits are calculated based on the average of the 35 highest years of earnings

Sustainability
- Trust fund assets are invested in special issue U.S. bonds backed by the full faith and credit of the U.S. government
- By 2034, payroll taxes collected will pay approximately 76% of benefits owed

Social Security Terms

**Full Retirement Age (FRA)**
is the age when you are entitled to receive your full Primary Insurance Amount (PIA)

**DETERMINING FRA**

**Primary Insurance Amount (PIA)**

**CALCULATING PIA**

\[
\text{Primary Insurance Amount} = \left( \text{Your Earnings} + \text{Years Worked} \right) + \text{Age}
\]

Collect Social Security before FRA and you'll receive a **reduced benefit**.
The Value of Waiting: Up to 8% per Year

Can you wait?

Waiting 4 years provides $500 more a month for life

Waiting 8 years provides $1,140 more a month for life

This hypothetical example assumes that the person is not working in retirement. Sample benefit amounts are not exact due to rounding. They do not reflect annual cost-of-living adjustments or taxes. Had taxes been taken into account, the amounts would be lower. Benefit at full retirement age is assumed to be $2,000 per month.

For investor use.
Social Security “Break-Even” Age
The age at which you break even and begin to come out ahead versus taking Social Security before full retirement age

This hypothetical example assumes FRA of 66 and that the person is not working in retirement. Sample benefit amounts are not exact due to rounding. They do not reflect annual cost-of-living adjustments or taxes. Had taxes been taken into account, the amounts would be lower. Benefit at full retirement age is assumed to be $2,000 per month.

SO, WHO’S TAKING THEIR BENEFITS WHEN?²

- 42% of men take benefits at **AGE 62**
- 48% of women take benefits at **AGE 62**

- 34% of men take benefits at **AGE 66**
- 27% of women take benefits at **AGE 66**

- 2% of men take benefits at **AGE 70**
- 4% of women take benefits at **AGE 70**

Delaying benefits beyond FRA could result in an **8% increase** year over year until age 70

A Special Earnings Limit Rule may be applied to clients who retire mid-year in 2021 if client:

- Under FRA, has earnings of $1,580 or less in any month, and didn’t perform substantial services in self-employment
- Reaches FRA, has earnings of $4,210 or less during any given month, and didn’t perform substantial services in self-employment

- Income from municipal bonds
- Wages
- Business income
- Interest
- Capital gains
- Dividends
- Traditional IRA distributions
- Rental income

May Not Include:

- Tax-deferred buildup inside IRAs, 401(k)s, and annuities
- Income from Roth IRAs
- Non-taxable income from life insurance
- HSA distributions when used for qualified medical expenses

### Benefits of filing early
- Can help alleviate financial stress transitioning into retirement

### Benefits of delaying filing
- Eligibility for delayed retirement credits, and an increased monthly benefit for those between ages 62 and 70
- A greater benefit amount to help cover costs throughout retirement

<td>$465,120</td>
</tr>
</tbody>
</table>

Claire’s benefits over her lifetime:

Eligibility

- Married to spouse for at least 9 months
- Married to an ex-spouse for at least 10 years and did not remarry prior to age 60
- Receive the highest benefit if eligible for multiple survivor benefits
- If eligible for own benefit and a survivor benefit, one may be activated early without reducing the other

This hypothetical assumes John’s monthly benefit at ages 62, 66, and 70 is $1,500, $2,000, and $2,640, respectively.

Opportunities to Maximize Benefits
Useful for divorced spouses

3 Former Spousal Benefits

TIP: Eligible for more than one benefit? Client will receive the highest.

**Divorced Benefits***

The ex-spouse may be entitled to up to 50% of an ex-spouse’s benefits if:

- Marriage lasted at least 10 years
- The couple has been divorced for at least 2 years
- The ex-spouse is currently unmarried

**Divorced Survivor Benefits**

If client dies, ex-spouse may be eligible for benefits if:

- Ex-spouse was entitled to Social Security or disability insurance at time of death
- Marriage lasted at least 10 years
- Ex-spouse has not remarried prior to age 60

You should seek the advice of a legal or tax advisor or contact Social Security to assist with questions.

* Provision is subject to final instruction from the SSA.

Filling the Income Gap
Most people do not rely only on Social Security in retirement

**Essential expenses** such as health care and mortgages should be covered by guaranteed* or predictable income sources:

- Social Security
- Annuities
- Pensions
- Systematic Withdrawal Plan (SWP)

* Subject to the claim-paying ability of the issuing insurance company

TIP: Works best for households that can handle lower monthly checks.

Greg and Laura are ready to retire:

**Claim Now**
- Laura, age 66, receives $2,000 per month
- Greg, age 62, receives $750 per month (75% of $1,000)
- Laura and Greg together receive $2,750 per month

**Claim More Later**
- Both claim, but Laura only claims spousal benefits
  - Laura and Greg together receive $1,250 per month
    (Laura receives $500 and Greg receives $750)
- At age 70, Laura claims her benefits
  - Laura and Greg together receive $3,390 per month
    (Laura receives $2,640 and Greg receives $750)

Opportunities to Maximize Benefits
Important for large differences in benefit amounts and/or life expectancies

Who may be affected?

- Individuals who earned a pension and did not pay Social Security taxes, and are eligible for Social Security benefits (based on their earnings and work history)
- A modified formula is used to calculate PIA
  - Reduces replacement rate of 90% of the first $996 to 40%*
- Maximum reduction in 2021 is $498 or 50% of pension, whichever is less
- WEP reduction may be as low as $0

CALCULATING WEP

40%–90% of the first Average Index Monthly Earnings (AIME) $996

+ 32% of AIME $960 through $6,002

+ 15% of AIME over $6,002

* For each year over 20 of “substantial earnings,” an individual receives 5% on top of the first 40%

Eligibility

• Social Security pays benefits to people that can’t work because they have a medical condition that’s expected to last at least one year or result in death.

• Social Security pays disability benefits through two programs, Social Security Disability Insurance (SSDI) and Social Security Income (SSI).

SSDI is available to workers who have accumulated a sufficient number of work credits

SSI disability benefits are available to low-income individuals who have either never worked or who haven't earned enough work credits to qualify for SSD.

How Do I Apply for SSDI?

- Apply online at www.socialsecurity.gov or
- Call toll-free number 1-800-772-1213 to make an appointment to file a disability claim at your local Social Security office.

You should apply for disability benefits as soon as you become disabled. Processing an application for disability benefits can take three to five months.
Who Decides if I’m Disabled?

• The Social Security Administration (SSA) will review your application to make sure you meet some basic requirements for disability. SSA will check whether you worked enough years to qualify and evaluate any current work activities. If basic criteria is met your application will be forwarded to the Disability Determination office in your state.

• The state agency completes the initial disability determination decision for SSA.

• The amount of your SSDI benefit is not based on the severity of your disability, but rather on the amount of income on which you’ve paid Social Security taxes.

• Factors the agency will consider: your medical condition, when your medical condition began, how your medical conditions limit your activities, medical test results, what treatment you have received.

• If your medical sources can’t provide needed information, the state agency may request an in-person medical examination.

If you disagree with a decision made on your claim, you can appeal it.
How Does Work Affect My SSDI Benefit?

- You cannot collect SSDI if you are engaged in what SSA deems Substantial Gainful Activity (SGA).
- You cannot receive an SSDI benefit in any month in which you earn over a certain limit ($1,310 for 2021).

Nine-month trial work exception
SSDI recipients are entitled to test their ability to work and continue to receive full benefits regardless of whether they make more than the SGA amount for a nine-month trial work period. For 2021 SSA considered any month in which a person had a monthly income of more than $940 per trial work month. Once you have completed the nine-month trial work period you can still receive SSDI for any month in which your earnings fall below the SGA level for a period of 36 months.
What Happens to My SSDI Benefit When I Reach FRA?

Once you reach FRA your payment will switch from an SSDI benefit to an SSA “Old Age” or retirement benefit, the difference being that your benefit is being paid from a different fund.

The switch from an SSDI benefit to a retirement benefit happens automatically and does not affect your benefit amount.

Upon reaching FRA you are no longer subject to the earnings test.
Government Pension Offset (GPO)
A reduction in spousal or survivor benefits

Who is affected?

✓ Individuals with a pension from a job not covered by Social Security, and
✓ Those eligible for Social Security spousal or survivor benefits (based on someone else's earnings and work history)

GPO reduces Social Security benefit by two-thirds of the pension amount
Other Beneficiaries

Who may qualify to receive your benefits?

✓ A spouse 62 years of age or older
✓ A spouse at any age if that spouse is caring for your child (younger than age 16 or disabled)
✓ Former spouses age 62 or older
✓ Parents dependent on your clients

✓ Unmarried children younger than age 18, or:
  • up to age 18 or 19 if full-time student or not yet graduated from high school
  • age 18 or older and severely disabled (with a disability that started before age 22)
Same-Sex Marriages

Married same-sex couples now get Social Security benefits

Same-sex married couples are eligible for Social Security spousal and survivor benefits

- Couples living in a state that previously did not recognize same-sex marriages can apply for benefits
- Non-married spouses also may be eligible for spousal benefits

A surviving spouse qualifies for the one-time lump-sum death benefit to help pay for expenses
